Seamless Integrations

Total Security

## SASPRO ERP

SASPRO ERP is a complete business management software designed to help your business obtain operational excellence. It integrates all the core business functions including Equipment Rental Module, Manpower Module, Trading Module, Finance Management & Inventory Management into one powerful and scalable system. The biggest advantage of this system is its ability to provide real time data across various departments in your company into a consolidated dashboard.

### Core Features

- ✔ **Business Dashboard**  
Real time consolidated data across various departments
- ✔ **Access from anywhere, anytime and any device**  
Access the software securely from anywhere in the world using your laptop.
- ✔ **Security**  
Peace of mind with unique authentication & permission mechanism.
- ✔ **Equipment Return on Investment Overview**  
Gives an overview of total return on investment for a given equipment by calculating estimated equipment cost, maintenance costs and annual benefits
- ✔ **End to End Equipment/Manpower Rental Management**  
Rental management module to maintain supplier information, mobilization & demobilization information, time sheet & equipment maintenance records. It also alerts you on insurance expiration for a given equipment

- ✔ **End to End Employee Management**

HR Management module which helps you:

- Maintain extensive employee details
- Manage salaries, leaves and claims
- Generate Appointment letters, Evaluate employees

- ✔ **Document Expiration Overview**

Easily keep track of documents expiration status & avoid paying penalties

- ✔ **Finance Management**

Fully integrated range of functions like general ledger, accounts payable & accounts receivable, cash management capabilities & other dedicated tools like approval mechanisms

- ✔ **Sales Management**

Keep a track of prospects, leads and customers efficiently. Easily generate & manage quotations, purchase orders.

- ✔ **Inventory Management**

Manage inventories, material requisition & material purchase requests.

- ✔ **Reports**

Detailed reports on Employees, Equipment, Part/Material and Accounting.
